Taft's Cabinet IS COMPLETED

REFUSED TO DIVULGE NAME OF LATEST ACQUISITION.

It Is Thought Treasury Portfolio Offered to and Accepted by Franklin MacVeagh—Official Announcement Later.

New York, Feb. 24.—President Taft to day completed his cabinet by the offer of the treasury portfolio and its acceptance. That the offer was made and accepted by Franklin MacVeagh of Chicago, is as near a positive statement as what is believed to be a fact as may be made in the face of absolute refusal by Taft to throw any light on the most interesting situation.

It is vaguely hinted there are things to be accomplished in Washington before the announcement may be properly made. Taft, however, justifies his silence on the ground he some time ago declared he would give out no information regarding the making of his cabinet until he was ready to announce it in an official manner. He gave a hint to night, however, that it might be possible for him to divulge the identity of the latest cabinet acquisition in the near future, but he at once qualified the hint with expression of doubt.

In spite of the strong belief that MacVeagh had been offered the treasury portfolio and had already or would accept, there were reports the name of A. B. Hepburn of New York, former controller of the currency, had figured largely in conferences on the subject. It was declared that should anything arise to eliminate MacVeagh from the list as it now is understood to stand, Hepburn would be selected to take his place.

MET INSTANT DEATH BY WABASH TRAIN

Edward Riley Run Over Wednesday Morning While Walking on Tracks Between Orleans and Alexander—Has Sister Residing in Los Angeles, Calif.

Edward Riley, aged 65 years, was run over and instantly killed by Wabash passenger train No. 4 going east, between Orleans and Alexander, on Feb. 23, Wednesday morning. He suffered a severe wound on the head, both arms and one leg broken and a dislocated hip. The train was going about sixteen miles an hour when the man was hit and hurled from the track to the embankment. The train was stopped and the crew picked up the lifeless form and took him on to Alexander and later he was brought to this city and taken to the Gillham undertaking parlors on the east side of the square. The only identification was a letter that was found on the dead man and was written Nov. 22, from Los Angeles, Calif., and signed Miss Mary E. Riley and there was also a postscript written by Mrs. Mollie L. Decker, both of whom are his sisters, as indicated by the context of the letter. The message inquired if there was a post office money order place at Berlin and made reference to the fact that the man had been sent at once, with a hope that his brother would not take any of the clothing or other things sent. The sisters address in Los Angeles, 1209 Pennsylvania avenue, to which place a telegram was sent last night.

At midnight last night, Coroner Piepenberg received the following message:

Coroner, Jacksonville.

Have arranged with John Under-

gange of Springfield to take charge of remains. Hold for my sister.

(Signed) Mary E. Riley.

H. J. Kennedy remembers a man by that name who used to work about the country as a farm hand and took care of horses and it is not at all unlikely that this is the same man. Coroner Piepenberg empaneled a jury which met at 7 o'clock last night and at 9 o'clock rendered a verdict of death. The scores of the different players are as follows:

EXAMINATION OF COL. COOPER

ACCUSED MURDER STILL UPON WITNESS STAND.

Day Replete With Exciting Incidents—State Trying to Prove Defendant Was Defaulter—Resurrect Old Records.

Nashville, Tenn., Feb. 24.—After a day replete with exciting incidents, the session of the Cooper-Sharpe trial for the murder of former Senator Carmack closed with Colonel Cooper still upon the stand. The direct examination of the colonel, which began early yesterday morning, lasted until nearly noon to day.

Almost the first thing the state did on cross examination was to announce that the late Colonel Cooper was a defaulter to the extent of over \$100,000 while clerk and master in chancery of Maury county. This participated a bitter fight and the state, winning a partial victory, straightway sprang another surprise. It resurrected some old legislative records concerning investigation into defalcations of State Treasurer M. T. Polk in the early 80's. It offered to prove that thousands of dollars of the state's money was invested by Polk with Cooper and others in a Mexican silver mine scheme, without log scheme in North Carolina, and scheme to buy the Nashville American.

Cooper admitted there were irregularities in his office of clerk and master in chancery, but said they were due to bad management and poor bookkeeping and that every dollar was made good. He admitted Polk was in chancery, but said they were due to bad management and poor bookkeeping and that every dollar was made good. He admitted Polk was in chancery, but said they were due to bad management and poor bookkeeping and that every dollar was made good.

Cooper's cross examination to day reached only the commencement of the trouble between him and Carmack. To morrow the state should reach the actual killing.

HAS BANQUET PHOTO ON DISPLAY.

T. M. Tomlinson, the popular north side clothier, has on display in his show window a banquet photograph of a recent banquet he attended in Chicago, given by the Good Fellowship Club of the Association of Commerce. It was held at the Hotel Sherman and the picture of Mr. Tomlinson is easily distinguished in the company. The flash light was taken before the guests were served and when the camera was pointed at the photograph taken was flashed upon a screen by means of a stereopticon, showing the banqueters a picture of themselves.

LOVED ANOTHER; KILLED SELF.

Owing to the wealth and social prominence of both the Sampson and Allen families the case has attracted great attention and the indications are that the trial will be one of the most notable in the records of Wayne county. Two weeks ago occurred the death of George A. Sampson, father of the young man alleged to have been murdered. The elder Sampson was regarded as one of the state's principal witnesses and there is considerable speculation as to whether his death may have influenced the trial. The defense will maintain that Harry Sampson committed suicide in a fit of jealousy and the prosecution probably will rely upon Albert H. Hamilton, a noted gun expert at Auburn, as the most convincing witness against Mrs. Sampson.

THE SAMPSON CASE

Prominent New York Woman Accused of Murder to Have Hearing to Night.

Rochester, N. Y., Feb. 24.—In the Wayne county jail at Lyons, passing the tedious hours in sewing and reading, Mrs. George A. Sampson, daughter of Frank P. Allen, a wealthy Wayne county farmer, is silently awaiting the first of April, when she will be placed on trial for her life. Mrs. Sampson has now been an inmate of the little jail for more than three months and apparently has become reconciled to her surroundings. Since the day of her arrest she has declined to talk about her case and refuses to receive any visitors except her lawyers, who consult with her almost daily.

The crime alleged to have been committed by Mrs. Sampson is the murder of her husband, Harry Sampson, nephew of the late Admiral Sampson. Sampson was shot on Nov. 14 at the Allen farm, three miles from the village of Lyons. He was found dead with a bullet in his heart. The theory of suicide, advanced immediately, found supporters until the discovery of a bullet wound in the man's right hand clasped against his chest when his body was found in the pantry of his father-in-law's house. He had been shot with his own rifle, but the rifle was standing in the gun room about four feet from the dead man. These circumstances were regarded as sufficient to warrant the belief that Sampson could not have held the rifle himself, pulled the trigger with his right hand and then placed the weapon in the corner, because death had been almost instantaneous.

The house on the Allen farm was arranged for two families, and Sampson and his wife occupied one wing and the family of his father-in-law occupied the other. On the morning of the tragedy there was a quarrel between Sampson and his wife over a letter which Mrs. Sampson had received from a Fairport man. Mr. Allen, the girl's father, tried to do just matters, but Sampson declared that he would leave his wife.

Shortly after the quarrel he ran into the Allen apartments with blood streaming from a bullet wound in his chest and fell dead at the feet of his mother-in-law. There were no smoke stains or powder marks on the floor or on either his shirt or his coat. Mrs. Sampson ran into the room a moment after he fell. She declared that she was in an upper room when she heard the shot. She went down to see what had happened and found her son lying on the floor. She called for help and a young man, insisted from the first that his son had been murdered. At the coroner's inquest the experts found that the bullet had deflected downward from the point of entrance at the heart, and that the weapon must have been held at least three feet from the body. The coroner, J. B. Rogers, reported that Sampson had come to his death from a gunshot wound inflicted by his wife. The latter, pretty, vivacious and the belle of the community, was at once arrested and lodged in jail.

Owing to the wealth and social prominence of both the Sampson and Allen families the case has attracted great attention and the indications are that the trial will be one of the most notable in the records of Wayne county. Two weeks ago occurred the death of George A. Sampson, father of the young man alleged to have been murdered. The elder Sampson was regarded as one of the state's principal witnesses and there is considerable speculation as to whether his death may have influenced the trial. The defense will maintain that Harry Sampson committed suicide in a fit of jealousy and the prosecution probably will rely upon Albert H. Hamilton, a noted gun expert at Auburn, as the most convincing witness against Mrs. Sampson.

REJECT SENATE AMENDMENTS

FIGHT ON OVER INCREASE OF SALARIES.

Oratory and Confusion in House Yesterday—Speaker Had Many Parliamentary Tangles to Unravel—Other Washington News.

Washington, Feb. 24.—With its warpath on the house to day by sweeping majorities many times defeated the senate by rejecting its amendments to the legislative appropriation bill providing for salary increases for the president, vice president, speaker, judiciary and for the creation of offices of undersecretary and fourth assistant secretary of state. Party lines were obliterated completely.

Next week will be one of the most important in the history of the lower body, where oratory and confusion vied with each other for honors. Not during the present congressional session has the speaker been compelled to bring about order so to day. Of parliamentary tangles there were many, but the veteran presiding officer emerged from them all with his decisions undisputed. The battle was waged for many hours, at the end of which the bill was sent to conference.

So much time was consumed in consideration of the conference report of that measure that a night session was made imperative in order that further discussion of the sundry civil service appropriation bill, which had dragged along for several days might be had.

Although members were primed for discussion of secret service, the subject was almost entirely forgotten. The bill was less than one-third completed when the house adjourned at 8:08 p. m., recessed until to morrow.

SENATE.

The agricultural appropriation bill was under discussion in the senate during practically the entire session to day. It was a very profitable talk and the fact that it was given by a practical professional man added weight to the truths emphasized.

SENATORIAL FIGHT.

Yesterday's Ballot Turned Into Farce by Democrats.

THIRTY-SIXTH ROLL CALL.

Hopkins	64
Post	17
Shurtliff	17
Stringer	41
William Dugan	41
Lowden	1
Sherman	1
Mason	1
A. J. Sabath	1

Springfield, Feb. 24.—The thirty-sixth ballot was turned into a farce when the Democrats made sport of it and nineteen of them persisted in casting a vote for William Dugan. There were a dozen pairs on the Republican side nearly all of them affecting Hopkins. Mr. Hopkins was on the floor of the house and senate prior to the joint session. Lordier was also on the ground, engaged in a stand that both men leave the city to night for Washington. No change in the balloting will take place this week.

Next week will be one of the most important in the history of the lower body, where oratory and confusion vied with each other for honors. Not during the present congressional session has the speaker been compelled to bring about order so to day. Of parliamentary tangles there were many, but the veteran presiding officer emerged from them all with his decisions undisputed. The battle was waged for many hours, at the end of which the bill was sent to conference.

SENATORIAL INVESTIGATION.

All Candidates Must File Itemized Accounts.

Madison, Wis., Feb. 24.—To day's session of the Wisconsin legislative committee investigating the senatorial primary was marked by a heated discussion by members of the committee of the scope the investigation of the election between Andrew Dunbar and Stephen A. Foster. The committee was instructed to file an itemized account of the same, as has been required of Stephens.

There were but two witnesses on the stand to day, both Stephenson managers—Rodney Sackett and State chairman J. C. Foster. Both made sharp attack upon the report made for Stephenson's support in various counties in the state.

NOT SO APPREHENSIVE.

London, Feb. 24.—The British government is not so apprehensive regarding the situation in Balkans as are some official circles in Europe, judging from indications in dispatches received here from various continental capitals. The foreign office recognizes the undoubted fact of the tension between Austria-Hungary and Serbia is dangerous, but it is hopeful of early relaxation in the situation. As far as known officially, the British government has no intention of participating in joint action, and negotiations are still going on with a view of proffer of good offices.

AUSTRIANS LINED UP.

Vienna, Feb. 24.—It is reported here two Austrians who were taken for spies have been lynched at Cetinje, Montenegro. According to the report, the cause and motives of both men were not clear. The British government is not so apprehensive regarding the situation in Balkans as are some official circles in Europe, judging from indications in dispatches received here from various continental capitals. The foreign office recognizes the undoubted fact of the tension between Austria-Hungary and Serbia is dangerous, but it is hopeful of early relaxation in the situation. As far as known officially, the British government has no intention of participating in joint action, and negotiations are still going on with a view of proffer of good offices.

NO WAR BREAK.

Berlin, Feb. 24.—There is no reason to believe outbreak of war between Austria and Serbia is imminent, according to the view held in the authoritative semi-official circles. Alarmed reports are regarded as being much exaggerated. It is admitted, however, the situation is not clear and will remain cloudy until these reports are cleared up. Austria is striving to maintain peace, make their voices heard at St. Petersburg and induce Russia to notify Belgrade that in the event of war Serbia cannot rely upon either direct or indirect Russian support. Whether Russia and the other powers will use their influence in peaceful support of Serbia depends upon their sentiment. It is believed, upon their support in bringing the Serbians to a calm attitude appropriate to the circumstances. It is not considered likely that Great Britain will be called upon to intervene at Belgrade in conjunction with France to preserve peace. The real key to the situation is for the moment, Russia, whose decision is eagerly awaited.

ECHO OF FAMOUS SNEEL WILL CASE.

Heard in the House of Representatives—Donahue of Bloomington Introduces Bill Bearing Upon "Contests of Wills."

The famous Snell and Crumbaugh will cases, the former from De Witt county, and the latter from McLean county, both of which were decided last week by the Illinois supreme court, found an echo in the legislature yesterday when Representative Donahue of Bloomington introduced house bill No. 167, bearing a title "In regard to contests of wills."

Under the provisions of the bill

ABOUT MISS M'GHEE

Her Mother, Mrs. Scott, Writes Regarding the Young Lady.

Mrs. Scott, now at the bedside of her daughter, Miss Corinne McGhee, writes as follows:

Murphysboro, Ill., Feb. 23. To the Journal:

For the loving kindness shown my daughter, Miss Corinne McGhee, since her sad misfortune, I wish to tender my sincere thanks. The clerks at the Blackburn-Pleth Dry Goods company's store, the Reckahs of lodge No. 625, and the Marsh Bilde class will always be remembered with gratitude for their sympathy, their beautiful flowers and all tokens of remembrance. I also want to thank many other dear friends who have written such good letters of kindness and sympathy and for their flowers. Though suffering with such pain that it seemed too much for her to bear, each token of love from a distance brought a bright smile to her face and she feels grateful to all.

The people of Murphysboro have been very kind to us and have manifested much love and sympathy. The kind and prayerful letters of our pastor, Rev. Mr. Whiting, of the First Baptist church, will always be especially treasured.

I write in this manner as it is impossible for me to answer in person all the kind letters which have been received as I am at the bedside of the invalid all the time.

Respectfully,

Mary A. Scott.

A POLITE SENATOR.

All who are acquainted with Billy Mason know his portly form and generous proportions. A while back admirers of Billy and Senator Cullom were discussing the respective merits of the two men when one suggested that Senator Cullom was the politest man he ever saw.

"Why, he got up and gave a lady his seat in a street car," said the man.

"Hump: That's nothing; I saw Billy Mason get up and give his seat to two ladies."

TO PALE, THIN PEOPLE.

Druggist Hatch Offers to Pay for Samose if it Does Not Make Thin People Fat.

Pale, thin people are simply suffering from want of nourishment. They may eat enough, but their food is not properly digested and does them no good.

Samose, the remarkable flesh forming food should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation, so that when taken for a short time, Nature will soon assert her normal powers, and the food that is eaten will give strength and good flesh.

Samose is a scientific flesh-forming food that restores the thin and scrawny to their proper weight, and fills the weak and debilitated with vigor and vitality.

The woman who longs for rosy cheeks and the plumpness of beauty should use Samose. The man who wants to be strong and well and gain health and good flesh, will find his desires accomplished by Samose.

Such remarkable results have followed the use of Samose that Druggist Hatch is willing to pay for the treatment if it does not give the desired results. He makes his offer generally and wants all who are thin, weak and out of health, to get a box of amose from him on those terms.

THEY MOVED THE TOWN.

A Kansas village, anticipating the prohibition law, bonded itself to the amount of \$35,000 for municipal waterworks. Subsequently the burden seemed to be a greater one than could be conveniently carried and the bonds were repudiated. The holders brought suit to collect interest and principal, and the case, we understand, is to come up in a few days. In the meantime, however, something has happened. The bondholders will lose both ways, for if they get a judgment they will have only a vacant stretch of houseless land, worth only a few dollars an acre. The town has been put on rollers and skidded across the line to an adjacent site, where it is comfortably established and ready for business. As the place has neither railroad nor telephone station, the operation was an easy one, and the exodus was completed before the creditors of the city were any the wiser. The most interesting point is, however, that the town has not now and has never had any waterworks. What became of the \$35,000 does not appear in the records.

LADIES MEETING

To Discuss the Nurses' Home For Paupers Hospital.

Attention is called to the meeting for ladies at State Street church, Saturday afternoon at 2:30 to discuss ways and means looking toward a home for nurses at Passavant hospital. This is an enterprise sorely needed and the Journal sincerely hopes there will be a large attendance. It is needless to say anything regarding the merits of the hospital for they are known to all and now that it is the work of the churches of the city it should receive the attention it so richly deserves. The nurses are badly in need of a building for as it is they are most uncomfortable crowded and have not the comforts and privileges to which they are entitled. This is to be a mass meeting of ladies and the church should be filled. There will be a good program and no collection. Every lady try to be there.

NEWS AND NOTES OF SPORT.

"Smiling Al" Orth will again manage the Lynchburg team in the Virginia league.

It's all wrong for Honus Wagner to wait until the ball season opens each year before he signs his contract.

The old pitcher, Connie Murphy, of "razzle dazzle" fame, will accompany the Boston Americans on the spring practice trip.

Alfred De Ore continues to win several contests each day from the three-cushion cue artists of New York.

Hempill, Keeler, Elberfeld and Chesho of the New York Americans have been ordered by Manager Stallings to start their spring work at Hot Springs.

Young Donahue writes from New Orleans that he got a bad deal from the referee in his bout with Phil Brock of the Crescent City.

Carney, the big first baseman of the Holy Cross team, has promised to join the Philadelphia Athletics at the close of the college season.

Manager Stallings' new pitcher, George McConnell, of Buffalo, is 6 feet 5 1/2 inches in height. He is an Irishman and not a Pale, as his height might indicate.

Andy Welch will sell the famous Charter Oak track to the Connecticut State Fair association in order that he may give his entire attention to Readville.

Pat McManus, the Milwaukee welterweight, will travel eastward with the hope of getting on matches with Micky Cannon, Unk Russell, Jimmy Gardner and Terry Martin.

Manager McCloskey of the Milwaukee team is trying to land Pug Bennett, but has met with no success so far. Pug played with Seattle last year and now belongs to the Spokane club.

Ed Walsh wants \$8,000 to pitch for the White Sox the coming season. "Comiskey is a fine man to work for," says Big Ed, "but that doesn't trim any of my coats with fur."

President Frank Navin of the Detroit Tigers says he has the highest salary in the American league. It must be the president's salary that causes Frank to speech thus.

Beck, the new outfielder signed by the Boston Nationals, drives a dray during the day and sings in concert halls at night. If it wasn't for the dray "Rube" Vaddell would like that combination.

Word from New York says that "Bugs" Raymond has injured his leg and will not be able to play ball for three months. The cause of the accident is not given but as "Bugs" once attempted to stop an electric fan with his hand, with the result that he nearly lost a lifter, it is to be presumed that he has been trying to trip a subway express train.

FIRE INSURANCE

No matter how efficient the fire department, no matter how careful you may be to avoid fire danger, you still ought not neglect the matter of insurance. Business men and concerns usually do not, though frequently a fire catches them only half insured.

But all too often the home and contents are unprotected. The very bed on which you sleep, the food in your pantry and coal in your cellar, cost you money and ought to be insured. And insurance is so cheap—80c for \$100, \$8 for \$1,000, for three years.

We represent ten of the best insurance companies on earth. The paper on which this ad is printed, and the press that does the printing, are covered by one of our policies. May we not write one for you? Call or phone.

DRY FARMING.

Annual Congress to be Held in Cheyenne—Seven States to be Represented.

The third annual meeting of the Trans-Missouri Dry Farming Congress, with a large attendance of delegates from the Western half of the United States, all men of high position in the affairs of the nation and their respective states, got down to business at Cheyenne, Wyo., Wednesday, with a display of enthusiasm that augurs well for a successful session.

Governor Brooks, who has given much of his time for several years past to the promotion of the so-called dry farming movement, is one of the leading spirits of the convention. Others taking part in the session include well known agricultural experts, prominent farmers and official representatives appointed by the governors of Utah, Nebraska, Colorado, Montana, Washington, Oregon, Idaho and other states where the movement has gained headway during the past few years.

The congress will continue in session three days, during which time the dry-farming movement and the redemption of the semi-arid lands now covered with sagebrush and cactus will be discussed in every phase. The finishing touches will be put on to plans already launched by the board of control to issue publications to farmers giving all information about scientific farming, to maintain a bureau of information, and, in fact, to carry on a great co-operative educational campaign for the benefit of those interested in dry farming.

IN JUSTICE COURT.

In the case of the People vs. Lester Loughary of Bethel, who was arrested on a peace warrant with intent to kill by Lyman Rife, Loughary appeared in Squire Coons court Wednesday. The people were represented by State's Attorney Tilton and Judge Charles A. Barnes represented Loughary. Loughary was released by paying all costs, and by giving a bond of \$150 to keep the peace for twelve months.

In Squire Reid's court Fred Banks and Walter Mathews were tried for selling liquor in the city and were acquitted. The defendants claimed all they sold was a preparation sent out by a brewing company and that it contained nothing intoxicating and to prove it they had a bottle of the stuff at the trial and a representative of the company to show what it contained. There was a jury and the verdict was not guilty.

ECZEMA LODGES IN THE SKIN.

Not a Blood Disease—Cured by Oil of Wintergreen Compound.

For many years eczema was supposed to be a blood disease and was erroneously treated as such, but now the best authorities agree that eczema is only a skin disease and must be cured through the skin. The eminent skin specialist, Dr. D. D. Dennis, first discovered the eczema germ and his discovery was quickly taken up in both Germany and France.

To kill the eczema germ and at the same time heal the skin, Dr. Dennis compounded oil of wintergreen, thymol, glycerine, etc. The remedy is a liquid, not a mere salve, hence it sinks right into the pores of the skin. Washing with this oil of wintergreen compound seems to take the itch away at once; soon the scales drop away and the disease disappears. Lee P. Allcott. The prescription has now been used so long as to have proven its absolute merit and we do not hesitate to express our confidence in D. D. D. Prescription as used with D. D. D. Soap.

A statement has been made to the effect that President Roosevelt after accompanying his successor, Mr. Taft, to the senate chamber and later on to the east portico of the capitol, where the new president takes the oath of office and delivers his inaugural, is not to return to the white house with President Taft, but is to take the train immediately for New York city. Rarely, if ever, it is declared, has the outgoing president since war days returned to the white house on such an occasion with his successor. The custom has been that when the president and the president-elect leave the white house for the senate chamber and the east portico the outgoing president has not returned to the white house.

In the selection of the simpler remedies for the most common ills and ailments a drug store has perhaps its best opportunity to prove its policy and methods of serving the public. "It's the little things that count."

Because preparations for certain purposes are in common and constant demand is all the more reason why they should be carefully selected, even if the ailments they are to treat are considered lightly.

We have a preparation that we recommend to those who ask for a "good physic." It is Nyal's Laxative Fig Syrup, a pleasant and agreeable fruit laxative that induces prompt and painless action of the bowels. Price, 50c. You will like it.

MATRIMONIAL

Hart-Harrison.

The beautiful home of Mr. and Mrs. Thomas Harrison, southeast of Sinclair, was the scene of a beautiful wedding Wednesday evening at 7 o'clock, when Lester L. Hart and Miss Cora Harrison were made husband and wife. The house was handsomely decorated with ferns, smilax and carnations, pink being the prevailing color. Before the ceremony Miss Schureman of this city seated herself at the piano and most skillfully rendered the following musical program:

To a Wild Rose McDowell
Message of Love Swifts
Narcissus Mevin
Idyl Adam Duval
Twilight Guy
Romance Serenade Wilson Smith

Then the hundred guests formed an aisle and while Alfred Harrison and Fay Hart acted as ribbon bearers, the wedding party advanced between the lines. The bride arrayed in a costume of white messaline trimmed with Irish lace in princess style, looked sweet and lovely. The notes of the wedding march from Lahengrin, by Wagner, rang out on the air as they marched to their places and during the ceremony "Love's Dream" by Wilson Smith, was beautifully and softly rendered.

Rev. Mr. Carter, Methodist minister of Jacksonville, performed the Methodist ceremony in an eloquent and impressive manner and then invoked the divine blessing on the young people about to begin together the journey of life. Many and cordial were the congratulations offered and after this pleasant part of the occasion had been completed all enjoyed a bountiful course supper and of course it was superb for all know the culinary skill of the ladies in that household. Many handsome, costly and useful present testified to the esteem in which both parties are held by a host of friends.

The bride's cake was duly cut, the darning needle falling to James Wilson, the dime to Miss Olive Hodgson and the ring to Miss Anna Hodgson.

The bride is the daughter of Mr. and Mrs. Thomas Harrison and is a lovely young lady of many fine qualities. She has been employed to a considerable degree as a music teacher with much satisfaction and she is skilled in the art of housekeeping.

The groom is the son of Francis Hart and wife, and is a highly estimable young man. They will live on a farm a mile south of Sinclair, and will go to their home with many good wishes by a great many friends.

This is the second daughter Mr. and Mrs. Harrison have lost, and Bessie is the only one left and fortunate too will be the man who wins her heart and hand.

ESCALLOPED POTATOES.
A Kentucky Style of Cooking That Adds Zest and Flavor.

Pare raw potatoes and slice them thin, the same as frying. Butter an earthen dish; put in a layer of potatoes and season with salt and pepper, butter and a bit of onion chopped fine if liked; sprinkle a little flour. Now put in another layer of potatoes and seasoning; continue this way until your potatoes are placed. Just before putting into the oven pour over all hot milk made by adding 3 cups of water to 1 cup of Every Day Brand Evaporated Milk. Bake three-quarters of an hour.

Cold boiled potatoes can be cooked the same. They require less time to bake. Escalloped potatoes are delicious made from either raw or boiled potatoes. If the onion is disliked it can be omitted.

Not until a housewife has learned by actual experience can she realize the advantage of using Every Day Brand Evaporated Milk. Instead of fresh milk it can be easily procured from her grocer in 5 cent and 10 cent cans and when on the pantry shelf it is always ready.

It will not spoil or turn sour in the can, and even after the can has been opened its keeping quality is better than that of fresh milk. Every Day Brand Evaporated Milk is pure, clean and wholesome milk from which a large part of the water has been evaporated.

It is unsweetened and is used satisfactorily for cooking, in tea or coffee, for feeding infants—in fact, for every purpose that fresh milk is used.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's
Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. Wm. J. York, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to the thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

S.S.S. CURES CHRONIC ULCERS

Any chronic ulcer shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it, of unhealthy matter from the circulation. No treatment can have any curative effect except a medicine which will renovate the blood and entirely remove the cause. Salves, washes, lotions, etc., are sometimes helpful in reducing inflammation, cleansing the ulcer, or perhaps lessening the discharge, but such applications do not reach the blood where the disease germs are located and can never effect a cure. S. S. S. goes down into the circulation, drives out all impurities and morbid matter, and by nourishing the flesh with rich pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but by beginning at the bottom, and rebuilding broken-down tissue, and supplying healthy, healing qualities to the blood, causes the place to fill in with new, firm flesh, while it steadily but surely effects a permanent cure. The ulcer can not exist when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

A SLUMBER PARTY

Members of the I. C. T. Have a
Unique Entertainment.

Ever hear of a slumber party? No? Then a portion of your education has been neglected and if a girl you ought to get in touch with the I. C. T.'s and find out about it. Or do as the Journal did get them to tell you something concerning the matter.

Anyhow, last evening they went to the Bijou theatre and then met with their member, Miss Emily Reed on South Main street, to enjoy a slumber party and by dint of hard persuasion the Journal induced the secretary to give up part of the secrets and that on condition no name was used. Of course it wasn't all slumber that they enjoyed so if you had been there and heard the gentle whispers and tiny exclamations indicative of mirth and good cheer, but in due time slumber was announced on condition that each one would rise before morning and tell her dream. A piece of rich advice pie was issued to each to provide midnight thoughts and they retired for the night and after yielding to the charms of Morpheus for the proper length of time the experiences were related.

"I dreamed I dwelt in marble halls, that I had wedded a foreign count and all went well for a while but finally trouble came and my count turned out to be a fraud and I gave him up."

"I thought I was alone in the forest rehearsing my oration and at the close of an especially high flight of eloquence a shadowy form appeared and addressing me said: 'Young woman, I have been listening entranced to your speaking and I hide my head and give it up. I am not in it with you. I am the shade of Demosthenes, supposed to rank at the head in eloquence, but hereafter I take a back seat.'"

"I thought I was walking down East State street when I saw a man shamefully abusing a little boy and all looked on with indifference till a young man came along and I appealed to him and in a moment the oppressor measured his length on the walk. I thanked the brave rescuer and giving me his name he craved the privilege of walking with me. He was indeed a noble young man and various walks and talks followed until—well—you may guess the rest."

"I dreamed I was alone at sea; alone on the steamer whom I knew until one day a storm arose when all were sick but me. I was on the way for a journey through northern Europe and was the envy of all. I helped care for the seasick ones and a grand young millionaire of New York declared I was such a good nurse he couldn't do without my services all the time and so I guess I'll accept."

"I thought I was on my way to school wondering how in the world I could stand off the teachers, as

my lessons were not learned. I was about to give up and shed a few tears, when a gentle hand was laid on my shoulder and a mild voice, which I recognized as the principal, said, 'Why are these things thus?' It replied that the thinness of my troubles was the outness of my preparation and he said in tones still milder: 'Let the thinness depart and your are excused.'"

"You all heard something fall, didn't you? Of course you were too polite to mention it. I thought we were having a game of basket ball and were about to lose when with a herculean effort I tossed the ball in such a way as to gain the point and in my frantic efforts I gave a tremendous effort and found myself sprawling on the floor."

Here the manuscript of the secretary gave out.

NEW ESTABLISHMENT.

East State street is surely improving, one of the recent evidences being the fine merchant tailor establishment recently fitted up and now occupied by T. M. Walsh, who has been so long and favorably known in this city. Mr. Walsh is a gentleman who thoroughly understands his business and has a fine line of suitcases ready for spring and summer wear and he is a cutter who knows how to make garments fit as they should. He has with him a competent corps of workmen and he may be depended on to give satisfaction every time. His place of business is 222 East State street and he has it finely fitted up and arranged for the work he has in hand.

TEXAS LAND.

E. B. Wiswell of the firm of Wiswell & Waters has just returned from a trip to Red River county, Texas, and says the county is found to be situated in the northeast portion of the state, being bounded on the north by the Red river and the second county west of the Texas Pacific railroad, running east and west through the state, thus intersecting all the north and south lines. Clarksville, the county seat, is a town of about 5,000 people and is a beautiful place for its size. Many large brick store buildings, a very large oil mill, with an enormous capacity, built at a cost of \$125,000. Two cotton gins and a large compress for making the cotton bales smaller for shipment. Waterworks, fire department, electric lights, fine walks, etc., etc.

The climate in this section he believes to be as good or better than any other of the numerous advertised portions of the country. Water is unsurpassed and is readily gotten at a depth of 20 to 50 feet. Fifty-five percent of the land in the county is as black and fine as any land in Morgan County, Ill., at a depth of from four to seven feet and a clay sub-soil. The remaining portion is of a sandy loam and from that to a lighter soil. The entire country is just rolling enough to drain well but not a hill in the country. The rainfall in this portion of the state will show by the government statistics to be the greater of the entire state; so you can readily see there is plenty of rain for all staple crops. The various crops raised are cotton of the best quality and on the black land is raised the long staple cotton. The long staple cotton is a rarity in most cotton sections, yielding easily a bale to the acre in a good year. Corn properly farmed can be made to yield from 40 to 60 bushels; oats and wheat unsurpassed in this section; grasses being Bermuda and Johnson, both very fine hay and pasture and sold at highest prices for hay; fruits and vegetables in abundance.

This section of the country is fenced and practically under cultivation. Many of the improvements are very extra while others are not so good, and so on down. The people are of those hospitable kind and not very progressive. Just been conducting their farms in the old primitive way, sending the colored man out with a rusty plow and a small mule and leaving the rest to him the entire year. Upon investigating this you will find this true with the old settler, but the new progressive man from the north who has come into the county in the last few years, you will find him producing the various crops as stated by the proper methods and reaping a profitable harvest.

I wish to call your attention to the fact that this county being traversed by an east and west railroad and not a north and south one, has caused it to be overlooked for the past few years, while the emigration has been flocking into the arid portions of the southwest and as a consequence, lands are to be had at a very low price compared with the interest they will produce when properly cultivated. I know any one will verify my statement by investigating it for themselves.

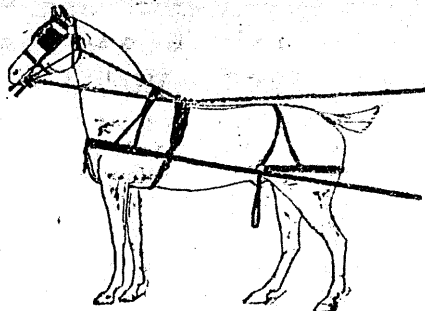

THE SUNDAY PARTY.

The Sunday party, after their rest in California, started for Illinois on Monday. A telegram sent by Mr. Butler from an Arizona city stated that the party would undoubtedly arrive in Illinois today and that he and Miss Anderson would certainly be here for the concert tonight. Yesterday the members of the party were in Kansas City and they will probably reach Springfield this morning.

MOVING PICTURES.

The famous Lyman Howe moving pictures at the Grand tonight.

HOW TO CURE SKIN DISEASES.

The germs and their poisons must be drawn to the surface of the skin and destroyed. Zemo and Zemetone will do this and cure any case of skin or scalp disease no matter from what cause or of how long standing. Write for sample. E. W. Krose Med. Co., St. Louis, Mo. See photos of cures and window or show case display by Arntstrongs' Drug Store.

ATTENTION, GENTLEMEN.

Something of Interest to All of You—Read and Ponder.

Every gentleman knows how pleasant it is to have a suit of clothes that fits and looks well and how unpleasant it is to have a garment that doesn't fit as it should and looks awkward and awry. For many years I have made merchant tailoring a special study and I feel that I have accomplished something in that line in which my friends and patrons may take much satisfaction. I have recently fitted up a new establishment at 222 East State street and have placed in it a full line of choice suiting and with my own knowledge of cutting and the trade in general and with a full corps of competent workmen, I feel justified in soliciting a share of the merchant tailor trade of the city and adjacent territory. It will be my constant aim to please and insure satisfaction to all who favor me with their orders.
T. M. Walsh, merchant tailor.

ANCIENT EGYPT AND MODERN RUSSIA.

Two notable features of Lyman H. Howe's new program at the Grand tonight show the newest—Russia. The pictures illustrate the achievements of a mighty past in ancient Egypt and those of the present in modern Russia. Both are weirdly beautiful—but with a beauty as different as black is from white. Every opportunity was seized by Mr. Howe's photographer to transfer the real Egypt and the real Russia to American audiences. The Egypt series possesses a peculiar fascination because the land is unsurpassed historically and in pictorial possibilities. The pictures of Egypt inspire the imagination, not only because of their strange beauty, but because the country is so rich in history and yet shrouded in mystery. Those marvels of the world—the Pyramids and Sphinx by their very immensity speak eloquently of a civilization compared with which Russia is but a thing of yesterday.

"BILLY" SUNDAY EXCURSION.

The members of the Baraca class of the First Baptist church are busy men these days as they are engaged in boosting the excursion that will be run from Jacksonville to Springfield next Tuesday, to the Sunday revival. Interest is growing regarding the trip by the delegation from this city and it looks like fully a thousand people will take advantage of the opportunity to hear the evangelist and see the Springfield tabernacle. Jeffries band will accompany the excursionists, as well as a large chorus choir.

EVER WATCHFUL.

A Little Care Will Save Many Jacksonville Readers Future Trouble. Watch the kidney secretions. See that they have the amber hue of health.

The discharges are excessive or infrequent; Contain no "brick-dust like" sediment.

Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick. Mrs. John Needham, living in the southern part of Virginia, Ill., says: I suffered severely from kidney trouble. The kidney secretions were very irregular in action and accompanied by a scalding sensation during passage. My back pained constantly; I had nervous headaches and was tired most of the time. I used various remedies, but was unable to find relief until I took Doan's Kidney Pills. They proved to be just what I required and it was not long before those severe pains in my head and back left me and my kidneys became stronger, and the secretions normal. I can say that Doan's Kidney Pills were of great benefit to me.

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agent for the United States. Remember the name—Doan's—and take no other.
